- Rail
- Utilities

Description

The Elevation Utility Boot features a waterproof membrane carefully sewn into the upper to keep feet dry. It has both toe cap and midsole protection made from lightweight, metal free composite material, plus a heavy duty bump cap for added durability. The ultra hardwearing PU/rubber, HRO rated, anti-slip sole is heat resistant up to 300°C making it ideal for demanding environments, along with padded EaziStep insole gives maximum comfort when you're on your feet for long periods.

Key Features

- Waterproof nubuck upper
- Lightweight metal-free toe cap and midsole
- 300°C heat resistant, anti-slip, anti-static and fuel oil resistant PU/rubber sole
- Energy absorbing heel reduces foot fatigue
- Heavy duty bump cap for added durability

Sizes

UK 6-13

Standards

EN20345 S3 WR
HRO SRC

The EaziStep™ insole is made from lightweight, ergonomically designed PU/mesh material that gives all day comfort and relieves tension in areas vulnerable to impact and stress such as the ball of the foot and heel area. Puncture holes give breathability without compromising any anti-static properties the footwear may have.
